

## PRACTICE SUSTAINABLE LIVING:

### RAINWATER CATCHMENT AND HOME COMPOSTING

**WHERE:** Warwick Valley Winery & Distillery, 114 Little York Rd, Warwick, NY 10990

**WHEN:** Saturday, April 27, 2024

Rainwater catchment and home composting are natural ways to recycle rainwater and organic waste from your kitchen scraps to return nutrients back to the soil.

**9:30 AM – 12:30 PM / \$55.00**

### RAINWATER CATCHMENT AND HOME COMPOSTING

#### Topics:

- How to harvest rainwater for garden use and to reduce flooding
- Hands-on workshop on how to convert a 55-gallon container into a rainwater catchment barrel. The container/barrel will be provided FREE (a value of more than \$75!) along with components and parts needed to transform it into a rain barrel that you can take home and install.
- Basic ingredients and techniques for composting
- How to establish and maintain a composting system
- Different types of composters and how to build your own composter
- Using compost in your garden and house plants

Instructors: Instructors – Jim Hall, organic and biodynamic gardener, and Peter Lai, agronomist and certified permaculture instructor.
